

VFD-3

VF1-75

VF Series Tram

Q800

Q750

JR1000

## Battery LHD (Mucker) Systems

Rectified DC to AC VFD	VFD-3 Series (500V - 750V in, 0 - 525V out)
DC to AC VFD	VF1 Series (128V Battery)
DC to AC VFD	VF2 Series (240V Battery)
DC to AC VFD	VF6 Series (72kW or 130kW) Systems with battery charger (650V DC) <i>Saminco Pure Electric System</i>

## Shuttle Car Systems

Rectified DC to AC VFD	VFD-3 Series (500V - 750V in, 0 - 525V out)
AC to DC	JD400 System (220V - 600V AC)
DC to AC VFD	VF1-75 System (550VDC)
VFD/Rectifier	JR1000 System (1140VAC)

## Rail Systems

DC TO DC	Q800 Series (80-360V DC in)
DC to AC VFD	VF1 Series (128V Battery)
DC to AC VFD	VF2 Series (240V Battery)

## Scoop Systems

DC to DC	Q750 Dual & Single Motor Systems (2000A / 120VDC)
DC to AC VFD	VF1 Series (128V Battery)
DC to AC VFD	VF2 Series (240V Battery)

## Feeder Breakers

VFD	VX2 Series (230V - 600VAC)
VFD/Rectifier	JR1000 System (1140VAC)

## Continuous Miners/Road Headers

AC to DC	JD400 System (220V - 600V AC)
VFD/Rectifier	JR1000 System (1140VAC)

## Battery Chargers

DC to DC	24V supply for on board charging
AC to DC	Wide range 3 PH AC to controlled DC charging

## Motors

### AC Traction Motors

Traction and pump motors: shuttle cars, scoops, LHDs, continuous miners.

Conveyor motors for shuttle cars and feeder breakers.

Available as explosion proof, liquid or air cooled, 2-4-6 pole, AC or DC.

AC motors are copper barred.

Our newest offering is an 85kW/55kW dual shafted mining locomotive motor.

### New Line of Motors

Check out our new line of MSHA-approved shuttle car motors made in the USA by Flanders. They are drop-in compatible. Please contact your Saminco rep for more information.

## Accessories

We offer a full line of accessories including:

- foot/ conveyor switches
- displays
- power supplies
- light supplies
- down choppers
- inductors
- capacitor banks
- brake modules
- rectifiers
- battery chargers
- EMC filters
- ground fault detectors
- radio control
- vehicle control systems

### Saminco systems:

- Proximity detection ready
- Installation service available
- Training available
- Custom parameter options
- Fully customizable systems which may include (depending on system) cables, master control modules, and displays. Optional accessories include footswitches, panic switches, bus bars, parameter programmer, light supply, pump modules, brake module, down chopper, EMC filter, joystick, fan cooling assemblies, PWM hydraulic components, motors, and radio remote control.

## STARTERS: Belt Starter Boxes, Fan Starters, Pump Stations, Feeders

208V - 15kV, 60A - 2700A

Belt Starter Boxes  
230V - 1000V

2.3kV - 15kV  
Soft Starters

230V - 1000V  
Starter Modules

Saminco is a preferred partner and systems integrator for Solcon.

## VFD: Fan Controls, Pump Controls, Belt Drives, Feeder Breakers

208V - 6.6kV, 1HP - 16,000HP

230V - 600V  
Outdoor VFD

VFD Family

230V - 1000V

# YASKAWA

Saminco is an authorized service provider and systems integrator for Yaskawa's VFD products.

## ELITE Installation Services

We can rebuild and refurbish your mining equipment at our West Virginia facility. Using the latest technology, we design, install and test your system to get you up and running as quickly as possible.

- Clean and repaint xp box
- All new parts
- Wiring diagram provided with final build
- Complete quality check and testing
- Warranty

## Pumping Applications

Turnkey pump control solutions, including remote monitoring.

## About us:

Since 1992, Saminco has been developing and manufacturing high power DC and AC drives and complete electrical systems. Utilizing the latest in technology with the expert capabilities of our engineering R&D team, we are able to design products that meet and exceed our customers needs. We have expanded our product lines to now provide complete electrical systems for all types of mining, industrial and transportation equipment.

Our Florida Headquarters and Manufacturing Facility is ISO 9001:2015 certified.

## Other Applications: Rail, Marine, Hybrid Vehicles

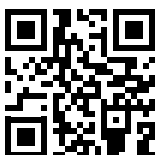

American Traction Systems, the sister company of Saminco, designs and manufactures efficient, high power AC, DC and PM propulsion motor controllers and system accessories. Used in locomotives, passenger vessels, hybrid trucks and buses, streetcars, light rail, airline ground support equipment, and battery powered vehicles of all types. ATS customers are in North America, South America, Africa, Europe, Asia, and Australia.
